Faster File Transfer with USB 3.0 Technology

The high-performance Lexar® JumpDrive S57 USB 3.0 flash drive allows you to quickly transfer photos, videos, and files with a transfer speed up to 150MB/s.* The drive is available in a range of capacities and colors, and includes a three-year limited warranty. Backwards compatible with USB 2.0 devices.

Quickly store and transfer content. With a busy life on the go and so much to do, the last thing you want is to spend extra time waiting for your files to transfer. The high-performance Lexar® JumpDrive S57 USB 3.0 flash drive offers a read transfer speed up to 150MB/s.* And for added versatility, the drive is backwards compatible with USB 2.0 devices.

Designed for Convenience. Beyond its performance and good looks, JumpDrive S57 is designed for convenience. It has a slim design and an integrated sliding cover to safely protect the drive and its contents.

Store more of what matters. The drive is available in a wide range of high-capacity options up to 256GB, opening up a world of storage possibilities and allowing you to store more of what matters.

Colorful Style. JumpDrive S57 comes in a range of colorful capacity options—16GB in yellow, 32GB in green, 64GB in purple, 128GB in teal, and 256GB in orange—providing a great color coding system to help you organize your drives and their contents.

With a long history in the industry, we know memory. We move quickly with technology to design the solutions you need, and work with device manufacturers to make sure our products are compatible. Then we stand behind them with outstanding warranties and helpful customer service. We're dedicated to performance, reliability, and expert support, so when it comes to storing the memories that matter, trust Lexar.

For more than 20 years, Lexar has been trusted as a leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, card readers, and storage drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

*Based on 64GB-256GB capacities. Up to 150MB/s read transfer, write speeds lower. Speeds based on internal testing. Actual performance may vary. x=150KB/s.

The latest USB 3.0 driver is recommended for best performance. Contact your device manufacturer to ensure compatibility before installing. Some of the listed storage capacity is used for formatting and other purposes and is not available for data storage. 1GB equals 1 billion bytes.
